

DASN Energy Workshop – Day 1

Monday, April 25, 2011

The MITRE Corporation

MITRE 2, 7515 Colshire Drive

McLean, VA 22102

Agenda

Time	Company	Speaker (Name/Title)	Topic
0730-0800	Check-in	On-Site Registration	
0800	MITRE Welcome	Dr. Rob Layden	MITRE Welcome
0805	DASN Energy Welcome	Mr. Tom Hicks – Deputy Assistant Secretary of the Navy for Energy	DASN Energy Intro
0815	DeVenCI Welcome	Mr. Glenn Fogg – Director, Rapid Reaction Technology Office	DeVenCI Intro
Company Presentations			
0830	SN Tech	Mr. Shannon Bard – Chief Executive Officer	Energy saving "drop-in" electric motors for HVAC-R applications
0855	NovaTorque	Mr. Scott Johnson – Vice President of Sales	Innovative electric motor technology which reduces wasted energy
0920	FloDesign	Dr. Michael Werle - Founder and Senior Technical Advisor	Hydrokinetic turbine for energy harvesting
0945	BREAK		
1015	Cogenra Solar	Dr. Gilad Almogy – Chief Executive Officer	Solar cogeneration technology
1040	Petra Solar	Mr. Johan Enslin – Chief Technology Officer	Distributed solar PV micro-grid functionality with energy storage

1105	Planetary Power	Mr. John Kohut – President and Chief Operating Officer	Hybrid Generator technology increases efficiency of mobile diesel generators to reduce fuel use, improve air quality compliance and reduce noise
1130	Solyndra	Mr. Ben Bierman – Executive Vice President of Engineering and Operations	Cylindrical solar PV panels
1155	LUNCH		
Company Presentations			
1255	Sopogy	Mr. Michael Kosmin – Director of Thermal Sales	Micro-Scaled Concentrating Solar Power
1320	M2Renewables	Dr. Scott Noll – Director, Renewable Energy	Remove the waste from wastewater and convert to usable energy
1345	First Element Energy	Mr. Mark Bowden - President	Dual fuel cell system that is compact, modular, and can be remotely managed
1410	BREAK		
1440	NEST Energy Systems	Tom Lederle – Vice President of Product Development	Transportable power support and tactical lighting systems controlled by integrated micro grid management system
1505	Primus Power	Mr. Rick Winter – Founder and Chief Technology Officer	Rugged continuous-use battery for bulk energy storage
1530	Prudent Energy	Jeff Pierson – Senior Vice President	Vanadium Redox battery energy storage system
1555	BREAK		
1615	Government Caucus		
1645	ADJOURN DAY 1		

**DASN Energy Workshop – Day 2
Tuesday, April 26, 2011
The MITRE Corporation
MITRE 2, 7515 Colshire Drive
McLean, VA 22102**

Agenda

Time	Company	Speaker (Name-Title)	Topic
0730-0830	Check-in	On-Site Registration	
0830	MITRE Welcome	Dr. Rob Layden	MITRE Welcome
Company Presentations			
0835	Aikan North America	Mr. Martin Hansen - President	Dry anaerobic digestion that converts waste to renewable energy and organic compost
0900	ElectraTherm	Mr. Robert Emrich – Vice President, Business Development	Creates fuel-free, emissions-free power by capturing readily available waste heat.
0925	Enerkem	Mr. David Lynch – General Manager, Research and Development	Conversion technology to convert waste into alcohols, hydrocarbons and/or electricity
0950	BREAK		
1020	Flex Energy	Mr. Joe Perry – Chief Executive Officer	Continuous, clean energy production on waste gas stream which is too low of concentration to flare/oxidize
1045	Harvest Power	Mr. Paul Sellew – Chief Executive Officer	Anaerobic digestion of organic waste into energy
1110	Infoscitex	Mr. Michael Cushman – Executive Vice President, National Security Solutions	Modular waste to energy conversion system

Time	Company	Speaker (Name-Title)	Topic
11:35	Sierra Energy	Mr. Michael Hart – President and Chief Executive Officer	Scalable and efficient waste conversion and energy production
1200	LUNCH		
Company Presentations			
1300	Digital Lumens	Mr. Michael Feinstein – Vice President, Sales and Marketing	Intelligent lighting system to help significantly reduce energy usage
1325	Luxim	Mr. Randy Reid – Vice President of Marketing	Light Emitting Plasma technology that is energy efficient and has a long stable lifetime
1350	JouleX	Mr. Mark Davidson – Chief Sustainability Officer	Agentless solution for monitoring, analyzing and controlling energy consumption and utilization
1415	BREAK		
1445	Scientific Conservation	Alan White – Executive Vice President of Corporate Development	Software platform of energy management diagnostic solutions
1510	Viridity Energy	Ms. Audrey Zibelman – President and Chief Executive Officer	Integrated real-time simulation and optimization platform that schedules and manages distributed energy resources in individual locations and /or on a microgrid
1535	Leyden Energy	Michael Saft – Senior Director for Business Development	Lithium-Ion Battery technology with thermal properties that allows the battery to operate at temperatures much higher than typical Lithium-Ion batteries
1600	BREAK		
1630	Government Caucus		
1700	ADJOURN DAY 2
